

W-625-Y

Medium Maturity

Warner Seeds, Inc.

Management Notes: W-625-Y is one our top performers and is known for its drought tolerant, lodging resistance and staygreen characteristics. It is well suited for dryland and semi-irrigated production systems.

Strengths & Weaknesses: W-625-Y staygreen characteristics allows it to weather late season droughts, however, it can also delay heading and slow drydown. Plant height may be a concern on fertile soils.
