

WARNER SEEDS, INC.

CORN HYBRIDS

**RESEARCH.
PERFORMANCE.
SERVICE.**

Available as: CONV, RR2, VT2P RIB, SS RIB

W-4010

- » Widely adapted across varying environments
- » Tremendous yield for maturity
- » Good Goss's Wilt tolerance
- » Very good early vigor with good stress tolerance

Management Tips

- ✓ Performs well on dryland and irrigated farms
- ✓ Multi-year good performance record
- ✓ Widely adapted across varying environments
- ✓ Very good early vigor with good stress tolerance

PLANT CHARACTERISTICS

Days to Maturity	92	Root Rating	Very Good
GDU's to Maturity	2280-2330	Gray Leaf Spot	Good
Plant Height	Med-Tall	Goss's Wilt	Good
Ear Height	Medium	Southern Leaf Blight	N/A
Ear Type	Flex	Northern Leaf Blight	Very Good
Test Weight	Good	Stalk Anthracnose	N/A
Leaf Angle	Semi-Upright	Common Rust	Good
Stalk Rating	Very Good	Grain/Dual Purpose	Dual Purpose

Available as: VT2P RIB, SS RIB

W-0401

- » Widely adapted across varying environments
- » Outstanding top-end yielder across years, Low risk of Greensnap
- » Very good ear flex with excellent girth
- » Impressive disease tolerance. Very good Goss's, NLB, and GLS

Management Tips

- ✓ Performs best on favorable dryland and irrigated farms
- ✓ Best on highly to moderately productive soils
- ✓ Best performance area mid Kansas and North
- ✓ Performs best when plant population not too high

PLANT CHARACTERISTICS

Days to Maturity	104	Root Rating	Very Good
GDU's to Maturity	2625-2665	Gray Leaf Spot	Good
Plant Height	Med-Tall	Goss's Wilt	Good
Ear Height	Medium	Southern Leaf Blight	N/A
Ear Type	Flex	Northern Leaf Blight	Very Good
Test Weight	Good	Stalk Anthracnose	N/A
Leaf Angle	Semi-Upright	Common Rust	Good
Stalk Rating	Very Good	Grain/Dual Purpose	Dual Purpose

Available as: VT2P RIB, SS RIB

W-1118

- » Proven high-yield over multiple years especially in tougher conditions
- » Very good root & stalk strength & good Goss's & very good NLB & GLS
- » Very good grain quality with a flex ear and good husk cover
- » Widely adapted across maturity zone and soil types

Management Tips

- ✓ Performs best under favorable dryland and irrigated farms
- ✓ Prefers cooler temps and works best from Hereford Texas and North
- ✓ Prefers the higher end of the population range
- ✓ Excellent top end yielder under good conditions

PLANT CHARACTERISTICS

Days to Maturity	111	Root Rating	Very Good
GDU's to Maturity	2770-2810	Gray Leaf Spot	Very Good
Plant Height	Med-Tall	Goss's Wilt	Very Good
Ear Height	Medium	Southern Leaf Blight	N/A
Ear Type	Flex	Northern Leaf Blight	Very Good
Test Weight	Very Good	Stalk Anthracnose	N/A
Leaf Angle	Semi-Upright	Common Rust	Good
Stalk Rating	Very Good	Grain/Dual Purpose	Dual Purpose

Available as: CONV

W-220C

- » Excellent appearance with superior plant health and late season integrity
- » Glossy, high quality grain
- » Excellent top-end yield potential

Management Tips

- ✓ Excels under irrigated conditions

PLANT CHARACTERISTICS

Days to Maturity	112	Root Rating	Excellent
GDU's to Maturity	2625-2675	Gray Leaf Spot	N/A
Plant Height	Med-Tall	Goss's Wilt	N/A
Ear Height	Medium	Southern Leaf Blight	N/A
Ear Type	Semi-Flex	Northern Leaf Blight	N/A
Test Weight	Excellent	Stalk Anthracnose	N/A
Leaf Angle	Upright	Common Rust	N/A
Stalk Rating	Excellent	Grain/Dual Purpose	Grain

Available as: DG VT2P

W-4412DG

- » High-yield potential
- » Excellent Goss's Wilt tolerance
- » Excellent greensnap tolerance
- » Excellent drought stress

Management Tips

- ✓ DroughtGard® hybrid with very good drought tolerance
- ✓ Recommended for corn-after-corn
- ✓ Performs under all yield environments
- ✓ Moves well north and south of its RM zone

PLANT CHARACTERISTICS

Days to Maturity	114	Root Rating	Good
GDU's to Maturity	2605-2645	Gray Leaf Spot	Good
Plant Height	Tall	Goss's Wilt	Excellent
Ear Height	High	Southern Leaf Blight	Excellent
Ear Type	Semi-Determinate	Northern Leaf Blight	Good
Test Weight	Average	Stalk Anthracnose	Very Good
Leaf Angle	Semi-Upright	Common Rust	N/A
Stalk Rating	Good	Grain/Dual Purpose	Dual Purpose

Available as: CONV

W-440C

- » Mid-season hybrid with excellent plant health and staygreen
- » Superior stress tolerance
- » Excellent performance across most soil types and growing environments

Management Tips

- ✓ Good tolerance to high populations

PLANT CHARACTERISTICS

Days to Maturity	115	Root Rating	Excellent
GDU's to Maturity	2725-2750	Gray Leaf Spot	N/A
Plant Height	Medium	Goss's Wilt	N/A
Ear Height	Medium	Southern Leaf Blight	N/A
Ear Type	Semi-Flex	Northern Leaf Blight	N/A
Test Weight	Good	Stalk Anthracnose	N/A
Leaf Angle	Semi-Upright	Common Rust	N/A
Stalk Rating	Excellent	Grain/Dual Purpose	Grain

Available as: VT2P RIB, SS RIB

W-4622

- » Full season yield leader
- » Widely adapted to north and moves south well
- » Excellent Northern Leaf Blight and Goss's Wilt tolerance
- » Good Canopy and excellent husk cover

Management Tips

- ✓ Full season yield leader
- ✓ Wide adaptation north to south
- ✓ Recommended for corn-after-corn
- ✓ Very good choice for Silage or Grain

PLANT CHARACTERISTICS

Days to Maturity	116	Root Rating	Very Good
GDU's to Maturity	2480-2880	Gray Leaf Spot	Good
Plant Height	Medium	Goss's Wilt	Very Good
Ear Height	Med-High	Southern Leaf Blight	N/A
Ear Type	Flex	Northern Leaf Blight	Very Good
Test Weight	Very Good	Stalk Anthracnose	N/A
Leaf Angle	Semi-Upright	Common Rust	Very Good
Stalk Rating	Very Good	Grain/Dual Purpose	Dual Purpose

Available as: CONV

W-458C

- » Consistent yielder across corn growing areas
- » Good stress tolerance on marginal ground
- » Very good test weight

Management Tips

- ✓ Performs well on dryland and irrigated farms
- ✓ Good option for less productive fields
- ✓ Fungicide is suggested when planted behind corn

PLANT CHARACTERISTICS

Days to Maturity	116	Root Rating	Good
GDU's to Maturity	2750-2800	Gray Leaf Spot	Very Good
Plant Height	Tall	Goss's Wilt	-
Ear Height	Med-High	Southern Leaf Blight	Very Good
Ear Type	Semi-Flex	Northern Leaf Blight	-
Test Weight	Excellent	Stalk Anthracnose	-
Leaf Angle	Semi-Upright	Common Rust	Average
Stalk Rating	Good	Grain/Dual Purpose	Dual Purpose

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Bayer Company is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

B.t. products may not yet be registered in all states. Check with your representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax® RIB Complete® corn blend is not allowed to be sold for planting in the Cotton-Growing Area. **See the IRM/ Grower Guide for additional information. Always read and follow IRM requirements.**

DroughtGard® Hybrids with RIB Complete® corn blend the refuge seed may not always contain DroughtGard® Hybrids trait.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready technology contain genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.
